

## Europa 3.0.10242.1 Release Notes

This document describes the content of Europa 3.0.10242.1 release.

Version: 3.0.10242.1  
Date: 2010-08-30

### About this release

This Europa release includes Domino 8.5 support for LDAP import. Europa can now let you exclude the domains to be imported from the sync LDAP page.

### New features

The following features have been added to this release:

- **Domino Support**
  - ◆ Users can be imported from the Domino 8.5 server.
- **Domain Exclusion**
  - ◆ Defining all the domains that you do not want to import users/aliases that belong to that domain will be excluded from LDAP Import.

### Limitation

Europa can only support Domino 8.5, any version other than 8.5 might not be detected on the LDAP import page.

### Updates

The following issues have been addressed in this release:

2447 Enh: add diagnostic tool to display info.data and EurDomain object  
2452 LDAP: import exclusion list of domains  
2453 need to support Domino type on Europa LDAP Import  
2454 CentOS: Cannot pop from Europa with SSL  
2456 csv import: upper case userids should covered into lower case
